EDUCATION

University of Massachusetts Boston

B.S. in Computer Science

Boston, Massachusetts

Expected Graduation, May 2026

- **GPA:** 3.94/4.00
- **Relevant Coursework:** Database Design and Management, Management Information Systems, Statistics, Discrete Mathematics, Client-Side Web Programming, Statistics, Calculus I, Physics I

EXPERIENCE

enLabel Global Services

Software Engineer Intern

Boston, Massachusetts

May 2024 – August 2024

- Developed automated infrastructure pipelines in AWS using Terraform, improving cloud resource management efficiency and cost savings.
- Designed and maintained scalable cloud-based solutions focusing on security, performance, and automation.
- Implemented Microsoft IIS7 with certificate-based security and DNS integration via CNAMEs.
- Created and updated technical documentation and client support materials for internal workflows.
- Configured site-to-site VPN to ensure secure remote access across cloud environments.
- Administered IT projects, including Azure Active Directory setup and domain control management.

Scale AI

Software Engineer – AI Trainer

Remote

February 2024 – May 2024

- Assisted development team through model evaluation and data training.
- Tested conversational flow to ensure chatbot interactions are smooth, natural, and error-free.
- Evaluated Artificial Intelligence performance including code correction and research verification.

PROJECTS

AI Hackathon – Mental Health

January 2024

- Developed a GPT-4 sentiment and self-harm risk analysis system with real-time chat and secure user login.
- Integrated MongoDB for data storage and implemented JWT and bcrypt to enhance security in user login processes.
- Created an email alert system to notify recipients of detected high-risk messages promptly.

ACTIVITIES AND LEADERSHIP

University of Massachusetts Boston

Computer Science Club

Boston, Massachusetts

September 2024 - Present

Massachusetts Institute of Technology

Imagination in Action – Forging the Future of Business with AI
Artificial Intelligence Leadership Conference Summit

Cambridge, Massachusetts

December 2023 - Present

Certifications

IBM AI Developer - [View](#)

February 2024

AWS Solutions Architect - [View](#)

August 2024

SKILLS

Programming Languages: Python, JavaScript, Java, C#, SQL, C++

Frameworks & Libraries: .NET, Node.js, Express.js, Next.js, React.js

Database Management: MySQL, AzureSQL, MongoDB, PostgreSQL, Oracle, Microsoft SQL Server

Tools & Platforms: Visual Studio Code, Git, Gradio, HuggingFace, Vercel, CodePen

Cloud Providers: Amazon Web Services (AWS), Microsoft Azure

Other Skills: Natural Language Processing, Web Interface Design, Database Migration, Agile development, Cloud Architecture
